ASSIGNMENT

This Patent Assignment (the "Assignment") is made as of August 21 2002 (the "**Effective Date**"), between Sarnoff Corporation, a New Jersey corporation with its primary place of business located at 201 Washington Road, Princeton, New Jersey 08540, ("**Sarnoff**") and Lamina Ceramics, Inc., a Delaware corporation ("**Lamina**").

WHEREAS, Sarnoff possesses a legal interest in certain patents and patent applications as listed in Exhibit A (the "**Patents and Patent Applications**");

WHEREAS, Sarnoff and Lamina entered into a certain Technology Patent and License Agreement dated April 25, 2001 (the "**License Agreement**").

WHEREAS, the parties wish to ensure the assignment of the Patents and Patent Applications such that Lamina may acquire the entire right, title and interest in and to said Patents and Patent Applications, subject to the License Agreement;

WHEREAS, it is desired that the assignment of these Patents and Patent Applications be made a matter of record in the appropriate domestic and international patent offices;

NOW THEREFORE for good and valuable consideration, receipt of which is hereby acknowledged, Sarnoff hereby assigns and transfers unto Lamina and its successors and assigns, the entire right, title and interest in and to the Patents and Patent Applications (including the inventions disclosed therein and any divisions, continuations, reissues, reexaminations, extensions or foreign counterparts thereof) together with all rights of action and recovery for past infringement thereof, subject to the License Agreement.

IN WITNESS WHEREOF, Sarnoff executes this Assignment as of the date below. The person who signs this Assignment below represents that such person is fully authorized to sign the Assignment on behalf of Sarnoff.
